**Description:** General Motors has decided that certain 2016-2018 Cadillac CT6 vehicles may not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 225, Child restraint anchorage systems/ Canada Motor Vehicle Safety Standard (CMVSS) No. 201.2, Lower Universal Anchorage Systems for Restraint Systems and Booster Seats During the vehicle assembly process, small amounts of excess structural adhesive may have been accidentally applied to one or both of the vehicles inboard child-seat anchorage bars. Hardened adhesive may cause portions of an anchorage bar to exceed FMVSS 225/CMVSS 210.2 diameter requirements and interfere with child-seat installation.

If this condition is present, the owner could be unable to use the anchorage bars to install a child seat. Until the recall repair is performed, owners should install child seats in the subject vehicles using the vehicles rear seat belts, in accordance with the vehicle owners manual and child-seat manufacturers installation instructions.

**Remedy:** Dealers will inspect the inboard child seat anchorage bars for adhesive. If found, the dealer will remove the adhesive and apply an anti-corrosion primer to the bar.

### Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 7/12/18 at 7:10:24 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

  - MODERATE: The accident damage affects the operation of the vehicle and/or its parts. Examples include broken windows, trunk lids, doors, bumpers and tires.
  - OVERTURNED: The vehicle rolled over in the accident.
  - MOTOR: The accident damage affects the operation of the vehicles engine and/or its parts.
  - UNDERCARRIAGE: The accident damage affects the undercarriage of the vehicle and/or its parts.

### Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase. Use [CARFAX Airbag Tips](#) to make sure this vehicle's airbag system is functional.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
